ABOUT KYON PRACTICA 2011

PRACTICA DESCRIPTION

In addition to being the inventor, designer and manufacturer, KYON is also an educator and steward of these procedures. KYON has held hundreds of courses world-wide, refining educational materials, presentations and technique with the help of numerous surgeons from universities and private practice.

Join us for an extraordinary educational experience at the Oquendo Center, a state-of-the-art training facility in Las Vegas, NV. Attend the first KYON Practica – a series of 2-day intensive instruction on KYON TTA, Zürich Cementless THR, the Advanced Locking Plate System (ALPS), and the first Zürich Cementless THR Master Class (one day).

Each practicum will include:

- review of rationale/theory,
- instruction in [lecture/video/bone model/cadaver formats](#),
- technical/practical instruction on basic techniques,
- bone model and [wet lab exercises](#),
- ample discussion,
- presentations on [clinical experience](#),
- [advanced techniques](#),
- avoiding/managing complications,
- [new/ongoing research](#).
