## SYMPOSIUM 2018

April 20 - 22 - Zürich, Switzerland

INNOVATIONS IN VETERINARY ORTHOPEDICS & TRAUMA

# KYON Symposium 2018

Symposia in Ancient Greece were a central Hellenic social institution, bringing together leaders from Greek society, to share, discuss, debate, eat, drink and socialize. It is in this tradition that we hold our own KYON Symposium, every spring, alternating annually between Zürich and Boston.

This year's program features presentations from a dynamic international faculty of human and veterinary orthopedic opinion leaders. In addition to updates on existing procedures and projects in development, we are honored to share with you the important work of Drs. Schütz, Fischer and Stoddart.

Thank you for your interest in furthering the art and practice of veterinary orthopedic surgery. We hope you find the meeting informative, provocative, and entertaining.

- The KYON Team

Venue: Technopark, Technoparkstrasse 1, 8005 Zürich

Friday April 20th

19:00 – 22:00 *Welcome Reception*

Saturday, April 21st
