

## We are looking for new teammates!

### This is us

In 2020, VOI, BioMedtrix and KYON have joined forces and form a leading global veterinary orthopedic group Movora - that complement and strengthen each other. Collectively, we now serve more than 50 markets around the world.

Movora is a global company focused on the advancement of animal health. Rooted in veterinary orthopedics, Movora's foundation is built on three decades of advancements in animal mobility. The group utilizes legacy expertise to deliver a broad range of innovative products by bringing together key leaders in veterinary medical technology to deliver progressive solutions.

Movora embodies a philosophy of always caring. Anticipating consumer needs and offering reliable solutions, alongside education, provide our customers value beyond product. We are proudly forward thinking. We prioritize reinvention, individuality, and always making the next leap in innovation.

**To strengthen our position in the veterinary orthopedics market and to accelerate the success of our fast-growing company, we are looking for a**

## IT Manager 80-100%

**The primary responsibility of the IT Manager is to coordinate, plan, and lead computer-system related activities within Movora. This role plays a critical part in advancing the level of digitalization within the group to ensure scalable growth as well as efficient collaboration between all locations.**

### Your Team

- You work in an international and multicultural team, located in 12 offices around the world
- Your workplace is in Zurich (Switzerland) or remote
- You report to CFO / CSIO

### Your mission

- Develop and implement IT policies and best practices for the organization and ensure all security policies are up-to-date and in compliance with legislation and regulatory requirements
- Plan, organize, control, and evaluate IT and electronic data operations
- Oversee and manage external IT support providers
- Ensure efficient and seamless collaboration and communication including the onboarding of newly acquired companies to the existing IT infrastructure
- Identify opportunities for skill advancements for staff including conducting training programs and workshops for staff
- Conduct regular system audits to make sure the IT infrastructure is up to date
- Serve as subject matter expert on IT related questions and be a resource for all locations.
- Oversee and determine timeframes for major IT projects (e.g., ERP, CRM, etc.)
- Manage and report on allocation of IT budget

**Your skills and professional experience**

- Bachelors' degree preferred, or an adequate education
- 3+ Years proven experience in a similar role required
- Excellent knowledge of technical management, information analysis and of computer hardware/software systems
- Hands-on experience with computer networks, network administration and network installation
- Expertise in data center management and data governance
- Highly motivated team-player with ability to develop and maintain collaborative relationships with all levels within and external to the organization
- Able to be flexible and supportive, react swiftly to and able to assimilate change positively and proactively in rapid growth environment
- Ability to work independently with strong self- and time-management as well as problem-solving skills
- Excellent verbal and written communication in English; any additional language is a plus
- Up to 25% travel

**We offer you**

- A diverse field of activity in a dynamic emerging company with a refreshing spirit
- An international environment, a young team that appreciates open, cooperative exchanges and supports each other
- We foster an environment where everyone thrives for better solutions and can achieve their full potential
- Conditions of employment in line with the market and opportunities for further personal development
- Remote work

We are looking forward to receiving your informative application including a motivation letter per email to [patricia.kaelin@movora.com](mailto:patricia.kaelin@movora.com)
